4 雅思口语-物品类话题实战与精析

- Part 1 物品类常规题目
- Part 2 物品类话题卡分类
- Part 2 物品类话题卡精讲

4.1 PART 1 物品类常规题目

1、Map

Map

- What kind of map do you like to use?
(electronic maps or those made of paper)
- Do you think map is important?
- How often do you use it?

Digital map- Convenient

- Map app
- Portable
- Default location
- Get direction
- Start point/ destination
- Location finder
- Map data

- Navigation/ navigator
- Compare routes

What kind of map do you like to use?

- Definitely digital map!

Google Maps is one of the **coolest** tools **available**, and **without a doubt** it's the best. I made my hometown my **default location** and I'm able to **get directions** easily. Also the **flashiest** thing is that for some **routes** you can even view images of your trip.

Do you think map is important?

- Absolutely. **As I said earlier** I don't think I can live without Google Maps. **A good example would be** it can show **up-to-the-minute traffic conditions** in many part of the world.

How often do you use it?

- Well, I love it and use it all the time since it is the **default map app** on my cell phone. **What I like the most** is that it can be used offline too. Normally, of course, you receive the **map data** via Wi-Fi or 4G but if you travel in **out-of-the-way places**, you might find yourself with no **network coverage**, though I just download the **relevant portion** of the map before I go somewhere new.

2、Cellphone

Cellphone

- Is your cell phone important for you in your daily life?
- What feature (or, function) of your cell phone do you like the best?
- Are there any differences between the cellphones that men use and those that women use?

Cell phone- feature

- Touch screen / Retina screen
- Smart phone
- Touch ID
- Battery life
- High definition camera / 8 megapixel
- Rear camera/ front camera
- Big storage / 128 gigabytes
- User-friendly operating system
- Take abuse / durable
- Gorilla glass
- Personal assistant
- Fitness tracker

Is your cell phone important for you in your daily life?

- **No doubt about it.** The small gadget **is considered as** a **basic necessity of life**. Let me just say, cell phone **provides** us an easy and fast way of communication and **enables** us to stay connected with everything else. **I just can't imagine the life without it.**

What feature (or, function) of your cell phone do you like the best?

- I would say I'm a **high-tech person** and I **get caught up with** all the **fancy** functions that a cell phone **comes with**. Like my iPhone, it got a retina display, longer battery life, 8mp camera, 128 gigabytes storage and gorilla glass... It's **a whole package deal!** Kind of hard to decide which one I like the most...

Are there any differences between the cell phones that men use and those that women use?

- **Apparently,** there is some difference between guys and girls when it comes to cell phone shopping. Girls **are all about** the look and color I guess...the only thing **we care about** is if the cell phone is pink... For guys, **it is a completely different story.** **They are more into** the features or **are obsessed with** the **state of the art** technology.

3、Movie

Movie

- What type of films do you like?
- Do you prefer to watch films at home or in a cinema?
- Do you think watching English movies can help you learn English?

What type of films do you like?

Action	Adventure	Animation	Biography
Comedy	Crime	Documentary	Drama
War	Fantasy	Western	Game-show
History	Horror	Music	Swordsman
Sci-Fi	Thriller	Independent	Romance

Do you prefer to watch films at home or in a cinema? Why?

- I think **it would be cool to** watch movies at cinema since it is a great treat. **One of the biggest reasons I feel like watching films at cinema** is the huge screen and louder speakers. Besides a higher quality of the films, **the second factor that makes me attached to cinemas** is that I can take this as an opportunity to go out and hang with friends. **Additionally...**

- I would rather watch a movie at home actually. There are lots of websites offering you complete HD experience for all the movies and everything is completely free. What I'm trying to say is all you have to do is to pick up your favorite movie by a simple click, though, the pop-up ads can be annoying at times.

Do you think watching English movies can help you learn English?

- Sure! Especially if you're tired of going to class, there's nothing better than learning English through movies. Here are couple reasons I believe it works. As I see it, you'll get to learn real English...not textbook English, because the English spoken in movies is very natural. It doesn't make any sense to learn something you will never hear people say. You learn English words in context as well.
